Crafting for companies,
brands, families and friends -
Crafting for everybody

At Forager, we believe that creating something with your hands is a radical act. More than a fleeting moment of joy, it's an act of self-care, personal growth, and connection to the generations who came before us. In a digital world, crafting provides physical grounding and a reprieve from the screen. Working with our hands improves our creativity, our problem-solving, our self-confidence, and offers a moment to relax, reset, and re-center - even if only for a moment.

Time and time again we hear from guests that they're surprised at what they made - that they didn't know they could create something they're proud of, that they simply aren't an **artist**. Our hope is to convince as many doubting minds as possible, to show them that they can indeed create something beautiful & physical with their own hands.

Something handmade - to hang on the wall, wear with pride, light the evenings, or gift to someone they love. Something sustainable, made with thoughtfully-sourced materials, with minimal impact on the environment, which gives back to the communities and natural lands around us. An act of creation which brings us closer together, nurtures new connections, and deepens our existing bonds. All that, and you get to keep what you make, too.

We're Forager. And we'd love to craft with you soon.

FORAGER • FORAGER • FORAGER • FORAGER

MOBILE CRAFT EVENTS

For mobile craft events, we'll coordinate with you or an event planner to put together a custom craft workshop for between five to 1500 guests. These events take place in-person - at your office, home, or venue of choice. Crafts are customized to meet your specifications, and we'll provide instructors and all the materials needed. Your guests will create alongside our instructors and take home their finished projects. Perfect and memorable for team-building, special events, holiday celebrations, brand partnerships, and product launches.

VIRTUAL WORKSHOPS

The workshop of choice for remote or international teams, virtual workshops are held over the video platform of your choosing. Craft kits will be shipped to each guest ahead of time for use on the day of the event. One of our talented instructors will walk your guests through the craft from start to finish. Most workshops are an hour long, but can be tailored for a longer or shorter timeframe.

Frequently Asked Questions

What's sustainable crafting?

Sustainable crafting means that we create products that will not just be thrown away - with materials that are reliably & ethically sourced. When you craft with us, you're receiving thoughtful materials packed in recycled and compostable packaging; supporting local economies & working artists in Los Angeles; and aiding environmental conservancy through partnerships with the Mojave Desert Land Trust & the Sequoia Parks Conservancy.

Can we customize or brand our craft?

Absolutely! There are quite a few ways to customize any of the crafts you see below - including tailored color schemes, embroidered textiles, branded packaging and labels, and so much more.

Will all my guests enjoy crafting?

While we know that crafting often gets lumped in with the feminine, we approach our crafts from a gender-neutral perspective. We aim to keep our activities accessible to all skill and ability levels. If a guest needs a particular accommodation, please just let us know.

FORAGERS • FORAGERS • FORAGERS • FORAGERS

Frequently Asked Questions

Do you put together crafts for kids?

You bet we do! Whether for a birthday party, sweet sixteen, bar / bat mitzvah, or a family hangout, we're happy to put together the perfect craft for your kiddos of all ages. Just get in touch.

How about weddings, baby showers, etc.?

Yes please! We love all kinds of special occasions and are especially excited about big life milestones like weddings and baby showers. Let us know how we can make your special day even more memorable.

How far do you travel for events?

We regularly travel all over California & major cities in the U.S. With that said, we're always happy to travel further or to more remote destinations. Just get in touch with us!

Do you offer group or non-profit discounts?

We certainly do, please get in touch with us!

How will guests take home their projects?

Workshops include sustainable packaging so that crafts make it home safe & sound.

Table of Contents

Signature Favorites

A collection of our favorite crafts for events at any time of the year. These are all tried-and-true favorites, and are a great go-to for any occasion.

Self-Care & Relaxation

The crafts in this section have all been designed to maximize rest and relaxation for crafters - both during the workshop, and as they enjoy the finished product at home.

Seasonal Crafts

While many of these crafts are popular throughout the year, this collection highlights crafts that lend themselves particularly well to certain holidays or seasons.

New Crafts for 2024

New & novel crafts for 2024, which are either brand-new offerings, or have been substantially updated & reimagined for the new year.

Consumable Crafts

These activities all incorporate elements of classic crafting, while creating a delicious final result. Crafts you can eat!

POURED SOY WAX CANDLES

PHOTO CREDIT TO FORAGER
CRAFTS

We start with 100% soy wax, carefully curated natural fragrances, and pure cotton wicks. From there, the possibilities are endless, from different colors and types of vessels, to customized labels, matches, and more. These candles are perfect for virtual or in-person gatherings, and are surprisingly quick & easy to create for all skill levels.

FORAGER • FORAGER • FORAGER • FORAGER

HAND-ROLLED BEEWAX CANDLES

The ingredients are simple & elegant - natural beeswax sheets in the colors of your choice (we favor natural, earthy tones, but can source a full range of colors) and long lengths of pure cotton wick. After that, it's all up to your guests - they can create tall, elegant tapers; show-stopping pillars; or charming mini candles, perfect for topping a cake on a special day.

WOOD BURNING

COASTERS, CHEESE BOARDS, ETC.

PHOTO CREDIT TO FORAGER CRAFTS

Using a heated tool, guests are able to burn detailed designs onto wood, accompanied by the smoky scent of a campfire. Designs are endless, and can include logos, mascots, or words of wisdom - and the projects are flexible too. We recommend using coasters or cheese boards, but frames, utensils, bird houses, and keepsake boxes are popular as well.

PORTABLE FLOWER PRESSES

Once you know how to create your own portable flower press, you'll find any excuses to go foraging on a hike or a walk around the neighborhood. In this workshop, we'll create a flower press and choose from a selection of flowers for pressing - and will also cover other techniques for pressing, as well as uses for the finished flowers, leaves, and grasses. These can be customized with decoupage or with wood burning tools.

ANALOG COLLAGE & VISION BOARDS

In this workshop, we'll provide a vast array of collaging materials, from magazines & newspapers to vintage book pages and found items. We'll rip, cut, tear, arrange, rearrange, and create unique analog collage artworks, suitable for framing.

Large artwork is popular, but notebooks, binders, and more can be collaged. During our session, we'll also touch on methods of digital collage for future project possibilities.

BLOCK PRINTED TEA TOWELS

In this workshop, each guest will be given the tools to carve a one-of-a-kind reusable stamp from their own imagination (don't worry, we bring templates too!) After their stamp is complete, we'll go through the process of printing on fabric using specialty inks, as well as a few fun techniques for designing repeating patterns. The end result for each guest is a washable, practical, and beautiful tea towel that can be used year after year.

SHIBORI DYE WITH NATURAL INDIGO

PHOTO CREDIT TO FORAGER
CRAFTS

Shibori is an ancient practice of Japanese resist-dyeing (like tie dye). In this workshop, guests will work with the deep-blue shades of natural indigo, as well as traditional Japanese dyeing techniques and tools (such as wood blocks, twine, and stones) to create custom textiles - such as tees, tea towels, scarves, or napkins. This is a craft that's best-suited for outdoor spaces, but can work in an indoor environment as well.

SUSTAINABLE NATURAL DYEING

When it comes to kitchen scraps, compost isn't the only option! Using commons odds and ends like avocado pits and onion skins, it's possible to create gorgeous dyes for textiles and fabric items. In this workshop, we'll work with linen napkins or tea towels as we play around with food dyes and learn about the dizzying array of color palettes available to us - if only we know where to look!

WOVEN WISHES WALL HANGING

This is a deeply collaborative workshop, in which all guests will work together on a single large weaving. A gift for a mama-to-be, perhaps, or a decoration for a new home or shared office space. As we weave together, we'll write "wishes" (messages of hope, love, goodwill) onto wooden tags, which will then be woven into the fabric of the weaving itself. A meaningful gift and a wonderful bonding activity. An original concept & favorite of ours here at Forager.

IDEAL FOR VALENTINES OR THE WINTER HOLIDAYS

Guests will select their favorite metal - whether silver, gold, or copper - and will then sketch & create an embossed ornament design. They can choose from provided templates, or create something totally new - either way, this craft is easy and accessible to all ages & skill levels. The hardest part is picking a design! The finished product is right at home on a Christmas tree, or makes a beautiful Valentine or gift.

AIR-DRY CLAY WINTER VILLAGE

IDEAL FOR THE WINTER HOLIDAYS

For neutral holiday decor, there's nothing quite as cute and whimsical as a winter village. This craft combines the fun of traditional gingerbread houses with a keepsake that you can use year after year in your holiday decorating. These little houses are easy to create, and look extra charming when lit up with twinkle lights or tealights in the evening.

FUROSHIKI CLOTH GIFT WRAPPING

IDEAL FOR THE WINTER HOLIDAYS

In this workshop, we'll walk through a few basic techniques for the Japanese art of furoshiki - which uses reusable cloths to wrap presents securely and decoratively. These eco-friendly techniques are complemented by fresh greens, dried citrus, and spices, as well as a buffet of ribbons, twine, and other goodies for making your sustainable gift extra-special.

FRESH WINTER WREATHS

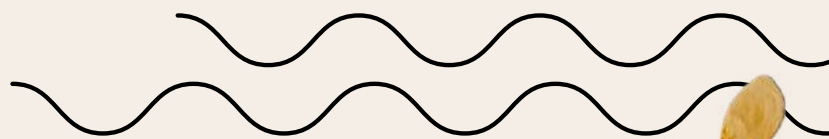

Our winter wreath features evergreen boughs, dried flowers, pine cones, dried orange slices, and whole spices such as cinnamon and star anise. Deeply aromatic, and the perfect size for a door at about 10" across. Silk chiffon ribbon rounds out the selection & provides the perfect way to hang the finished wreath. These beauties smell like winter in the mountains - and with the proper care, they'll last all winter long.

ALCOHOL INK ARTWORK

Alcohol ink art is a vibrant, freeform way to create abstract artwork. The inks are applied onto specialty paper by guests, and then moved and layered using gravity, eye droppers, and heat guns.

After the first layer has set, guests can go over their artwork with paint pens, or continue to layer new colors & metallics over the colors to create deep, complex designs. We recommend adding on frames for these, as they're so beautiful to display!.

AIR~DRY TERRA COTTA VASES

While we're big fans of the classic white air dry clay, we're excited about the new terra cotta clays that are becoming available. The rich, earthy tones of terra cotta are at home in almost any home, and the air-dry nature of the clay makes this workshop nice & easy. Guests will use classic clay tools to hand-build their perfect vase, and after a short week of dry time, they can use their vases to display faux or dried flowers with pride. White paint or underglaze also looks incredible on these!

BUNDLE DYEING WITH FLOWERS

We'll guide you and your guests through the process of using flower petals & other natural dye materials (including both dye plants & kitchen scraps) to create beautiful bundle-dyed fabrics. We recommend napkins, but pillowcases, tea towels, and other household textiles are also popular. A lovely keepsake or addition to your home, and a great and easy way to get started with natural dyeing!

FRESH & FORAGED WATERCOLORS

While we'll tell you how much we love our regular watercolor tools, there is something truly special about creating fresh watercolors from nature - and then using them! In this workshop, guests will learn how to create several shades of natural watercolor from fresh & foraged ingredients - and will then be guided through a botanical illustration using their hand-made paints. Palettes & themes can be easily customized to suit any event or venue.

HAND~DRAWN PULLED PRINTS

One of the earliest forms of print-making, coming back into style today! Using a printing block and specialty block-printing ink, guests will create one-of-a-kind artworks by layering their heavyweight paper onto the printing block, then drawing an original design on top. When the “pull” the print up, their finished design will be printed onto the paper, and ready to hang on our drying racks. A fun, dynamic, analog craft that works well for a crowd.

POLAROID PHOTO FRAMES

PHOTO CREDIT TO FORAGER
CRAFTS

A fun way to combine the traditional photo booth with a craft! For these frames, we use Instax cameras and have guests capture photos of each other - either posed, or candid. The best photos are then ready to be framed, along with an assortment of pressed flowers & greens. These make beautiful keepsakes, travel like a dream, and ensure that photos will be cherished long after the event.

BENT~WIRE JEWELRY

Using strong & flexible jewelry wire in gold or silver, guests will create lightweight shapes inspired by line art - from tropical leaves to abstract faces or monogrammed letters. The finished pendants can be affixed to earrings, necklaces, or keychains, depending on preference - and immediately worn and shown off. An engaging activity for nearly any setting - indoor or outdoor - and any group size.

PRESSED FLOWER COASTERS

PHOTO CREDIT TO BRIT.CO

These coasters are made with hand-pressed flowers, and are as perfect for hosting in your own home as they are for giving away to someone special. Guests will create their own perfect set of 4 coasters using a selection of pressed flowers and leaves - then seal them up with real copper to create a practical - and beautiful - piece of décor.

DISCO BALL POURED CANDLES

These disco ball candles put a fun & unexpected twist on traditional poured candles. We love the way that these 10 oz. vessels cast rainbows & dancing light around the room! As with all of our candle classes, guests will create their own custom scent blend & mix their own soy wax before learning to pour it inside the vessel. These candles come with bamboo lids for safe storage, and make beautiful containers once the candle has been fully burned & enjoyed.

BOTANICAL SUGAR COOKIES

In this virtual workshop, guests will be guided step-by-step through the process of baking these simple vegan botanical sugar cookies. These beauties are a lovely addition to a cookie jar or cookie swap, and have all the sugar cookie flavor that we crave each December. We send out a shopping list to each guest, along with a couple of specialty tools that they may need. From there, they'll be guided in a live virtual workshop from start to finish!

MINI CHARCUTERIE ARRANGEMENTS

PHOTO CREDIT TO LINF: & SPROUT

We've never met someone who *didn't* enjoy arranging a charcuterie platter - provided that all of the sourcing was done first! We take care of the hardest part - the shopping, sourcing, and prepping - and then let guests go to town on creating a charcuterie tray that's a true work of art. We'll walk guests through the basics of arranging, and provide tips and demonstrations on how to create popular adornments. These trays are *almost* too beautiful to eat - but not quite.

GOURMET CHOCOLATE BARS

Creating your own gourmet chocolate bar is much easier than you might think! Provided that you have the proper mold & start with the best chocolate, you'd be surprised at the beautiful creations one can whip up with just a bowl & a microwave. We'll provide gourmet toppings like rose petals, freeze-dried berries, dried oranges, and more. Guests will walk away with beautiful bars that are suitable for gifting, or simply enjoying as a luxurious snack.

BOTANICAL COCKTAILS & MOCKTAILS

In this workshop, guests will be introduced to core principles of mixology as well as common drink types. Approaching cocktails as an art, rather than set recipes, we'll guide folks through general guidelines, rather than hard-and-fast rules. All drinks will incorporate botanical elements such as flowers, teas, and infusions, and will be made as mocktails, with wine and spirit recommendations for those who'd prefer the harder stuff.
